Semester

04

Course Title

DBMS

Submitted By

Engr. Awais Rathore

Lab

07

1. Introduction

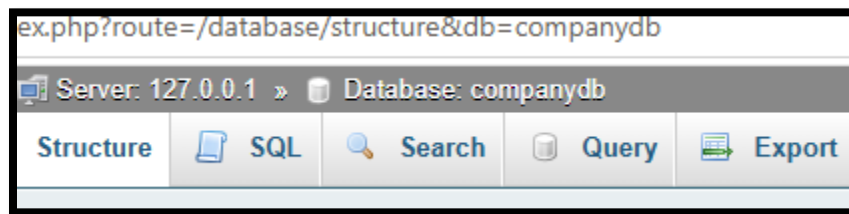

This lab was performed to understand SQL filtering techniques using MySQL in XAMPP. Different SQL operators and clauses such as WHERE, AND, OR, BETWEEN, IN, LIKE, IS NULL, ORDER BY, and LIMIT were used to retrieve specific employee records from the Employee table.

2. Objective

The objective of this lab was to practice SQL filtering and sorting operations on a database table using MySQL queries.

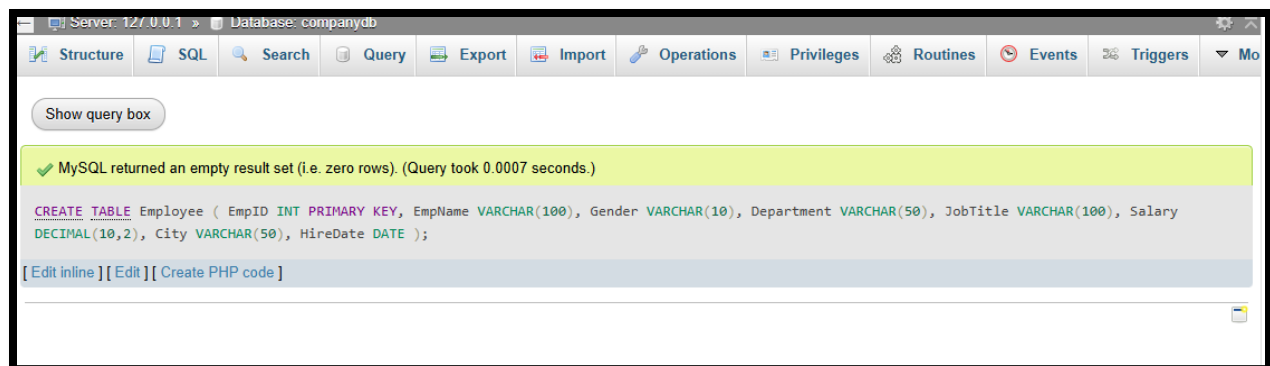

3. Database Creation

First, the XAMPP server was started and phpMyAdmin was opened through localhost. A database named “companydb” was created successfully.

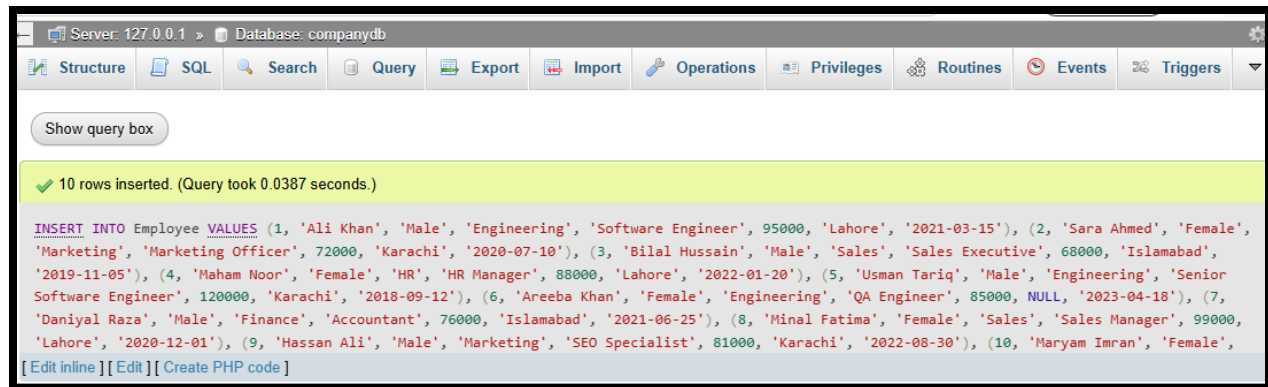

4. Employee Table Creation

An Employee table was created in the companydb database using SQL CREATE TABLE statement.

Data Insertion

Sample employee records were inserted into the Employee table using INSERT INTO statement.

Employee records inserted successfully.

5. Part B Queries

Task B1

- This query displays employees whose salary lies between 75,000 and 100,000 in ascending order.

```
SELECT *  
FROM Employee  
WHERE Salary BETWEEN  
75000 AND 100000  
ORDER BY Salary ASC;
```

✓ Showing rows 0 - 5 (6 total, Query took 0.0007 seconds.) [Salary: 76000.00... - 99000.00...]

-- Task B1 `SELECT * FROM Employee WHERE Salary BETWEEN 75000 AND 100000 ORDER BY Salary ASC;`

[Edit inline] [Edit] [Create PHP code]

EmpID	EmpName	Gender	Department	JobTitle	Salary	City	HireDate
-------	---------	--------	------------	----------	--------	------	----------

Query results operations

Output of Task B9 query showing engineers outside Engineering department.

Task B10

- This query lists employees who do not have a recorded city value.

```
SELECT EmpName  
FROM Employee  
WHERE City IS NULL;
```

The screenshot displays a database query interface. At the top, a green status bar indicates "Showing rows 0 - 0 (1 total, Query took 0.0005 seconds.)". Below this, the SQL query is shown: "-- Task B10 SELECT EmpName FROM Employee WHERE City IS NULL;". Underneath the query, there are links for "[Edit inline]", "[Edit]", and "[Create PHP code]". A control bar includes a "Show all" checkbox, a "Number of rows:" dropdown set to "25", and a "Filter rows:" search box with the placeholder text "Search this table". An "Extra options" button is also present. The main table has a single column header "EmpName". Below the header, a row is displayed for "Areeba Khan" with icons for selection, edit, copy, and delete. At the bottom, there is a "Check all" checkbox, a "With selected:" label, and additional icons for edit, copy, delete, and export.

Output of Task B10 query showing employees with NULL city values.

Task B11

- This query displays employees with available city values sorted alphabetically.

```
SELECT *
FROM Employee
WHERE City IS NOT
NULL
ORDER BY City ASC;
```

✓ Showing rows 0 - 8 (9 total, Query took 0.0006 seconds.) [City: ISLAMABAD... - LAHORE...]

-- Task B11 `SELECT * FROM Employee WHERE City IS NOT NULL ORDER BY City ASC;`
